

I am very concerned that I may lose my radio station Air1. This station has saved my life and the lives of many others in my community by offering hope and guidance. They have also help many of us who cope with this war by offering us a way to communicate message of love, hope and support to our men over seas. My church gets vital information from this radio station when we need current updates on christian events, help awareness or just direction and know how. There are enough rock stations,hip hop and hispanic stations on the radio and only one christian radio station in the Riverside county area and one in the orange county area. ONLY ONE!! I believe you are doing an injustice to the communities if you take away the one hope we have of positive music. I was told I had a choice that I could change the radio station if I didnt like what my kids were listening to, I did. Now you are taking away the ONE GOOD choice left for children to listen to. How is that FOR THE GOOD OF THE COMMUNITY? It's not. Kids see and here to much negative today. Dont let the FCC encourage that also.

Thanks,
In God I Still TRUST,
Donna.
